Replace that old "ding dong" with this programmable musical doorbell!

>>> [Musical Doorbell was recently featured on HGTV's Curb Appeal click here](#) <<<

>>> [NEW! See videos of the Musical Doorbell in operation, click here](#) <<<

Comes complete with over 100 built-in songs, animal sounds, & voice phrases. Plus it's user-programmable for any song you want!

Announce your visitors in style, to custom music you create yourself, or choose from well over 100 built-in songs, sound effects, and even voice phrases. This electronic door chime is designed to replace the normal wired mechanical door bell in your home. It supports a front door button (both lighted and non-lighted) as well as a back door button (optional). An additional speaker can be added for larger homes, basements, etc. It can be setup to play any particular song or sound, or for more variety, it can sequence through any one of twelve groups as shown below.

Only \$49.95! Order Now!

"We love our door chime and I installed it myself. Great fun and enjoyed by all." - Arline T., Henderson, NV Sept 2004

But the real versatility of this doorbell comes with its *unique programmable feature*. Using the built in piano-like keyboard, you can easily program in your own song! It even comes with an instruction manual containing the notes for many more popular tunes, or check our [user forums](#) for songs that have been composed and uploaded by our users. A song can be programmed note by note or it can simply be played like a piano and the doorbell will record and playback your composition. No more annoying ding dongs. Program songs for family events such as birthdays or anniversaries. Have it play your school fight song. Switch it to Holiday songs for your guests at your Christmas party. Have it scream or howl for Halloween. The possibilities are endless.

This product is limited only by your own imagination.

All built-in songs and sounds are listed below. Click any title to hear the actual sound.
