Introduction

Thank you for the confidence you have shown in our company by purchasing a Blue Bird Wanderlodge. This catalog is designed to assist you in ordering service replacements parts for your Wanderlodge. It contains illustrations with parts information for most parts and accessories.

If at any time you should need assistance. Please don't hesitate to contact your Wanderlodge Dealer or the Wanderlodge Parts Department in Fort Valley, Georgia, U.S.A.

Ordering Parts

You can order your service parts from your Wanderlodge Dealer or directly from Blue Bird Wanderlodge, Fort Valley, Georgia. When placing an order give the quantity, Wanderlodge part number and a brief description. If for some reason you have been unable to find the part number, advise the quantity and a complete parts description, along with the body number for which the parts are required. The body number of your Blue Bird may be found on the Data Plate which is located on the crossmember in the engine compartment. A picture of the Data Plate appears on the inside front cover of this catalog.

When ordering parts for a major wreck, it is a good idea to include photographs with your order. This will help to fill your order correctly.

Receiving Parts from Carrier

Certain steps should be taken when receiving an order to insure it's completeness and to evaluate the condition of the parts received.

1. Check the number of pieces actually received against the number of pieces shown on the bill of lading.
2. Visually check the external condition of the boxes, crates, etc. Any discrepancies should be noted on the bill of lading. Have the driver initial each notation on your copy and his copy of the bill of lading.
3. Any concealed damage not discovered until after the carrier has left should be reported immediately to the carrier.
4. Claims for shortages or damages should be filed with the carrier immediately.
5. If incorrect parts are received, notify the Parts Department from whom you purchased the parts. They will advise disposition of the parts. Do not return parts without prior authorization.

Shipment of Material

All parts will be shipped the most economical way, unless otherwise specified.

Company Policy

Although it is impractical to include all parts in this catalog for all options offered, we believe those included will meet the great majority of your needs. It is our earnest desire at Blue Bird to give you the fastest and most accurate service possible. Please help us by studying this catalog and ordering by the correct part number.

A Word of Caution

Blue Bird Wanderlodge uses new parts and components in the manufacture of its' coaches. We strongly recommend that you use only new parts and components for replacement purposes. Blue Bird or its' vendor can not be responsible for failures due to the use of used or rebuilt parts.

Payment

All parts orders are shipped on a C.O.D. basis unless other arrangements have been made with your Wanderlodge Dealer or Blue Bird Body Wanderlodge. This is customary in the automotive field.

Important

The illustrations and drawings used in this parts catalog are to be used for parts identification purposes only, not as a guide for assembly, disassembly, maintenance or service.

Chassis Service Number

A chassis service number (CSN) is assigned to the chassis of each Blue Bird Wanderlodge. This number is used to identify the sequence in which a chassis is set up in production.

Example: CSN 0958560 is set up immediately before CSN 0958561. This will assist you in identifying the first unit (beginning CSN) or last unit (ending CSN) on which a part was installed.

The CSN can be found attached to the axle record plate which is on the right side of the engine compartment. A picture of the axle record plate appears on the inside front cover of this catalog.

10th August 1944
